## REPORT OF DIRECTOR AND SCHOOL IMPROVEMENT COUNCIL

The Fred P. Hamilton Career Center achieved outstanding progress in transition services, implementing national and industry standards and professional development. HCC welcomed students and teachers on campus to explore career and technology education. We collaborated with career specialists for district-wide eighth grade tours and held a Career Expo for all Freshmen. During the Expo partners from all 10 clusters met with students to explain the world of education and work needed to succeed in the field. These experiences helped students focus on career pathways when parents and students completed electronic Individual Graduation Plans.

Opening our campus worked in concert with our excellent SDOC team of counselors to link students strongly with the career and technology education opportunities at Hamilton. Once again, we saw our enrollment grow, with an unduplicated student enrollment of 1095 students and 1579 seats taken in HCC courses. This growth is also due to the development of a master schedule based on student requests, providing maximum equity and access to CATE courses for all HCC students.

HCC also continued to link our district teachers, administrators, and counselors to local employers through "Educators in Business and Industry Day," where 60 businesses hosted over 450 educators to teach them about operations and related skill sets.

Students excelled on the state and regional levels in SkillsUSA, with 17 students earning top honors in Technical Math, Job Skills, Quiz Bowl, Welding Fabrication, Residential Wiring, Screen Printing, and Carpentry. The HCC Quiz Bowl Team and Carpentry winner represented S.C. at Nationals in Kansas City. Metal in Motion TEAM 343 won the Peachtree Regional and finished runners-up at Palmetto, easily qualifying for Internationals. For the second year running, HCC Cosmetology students achieved 100% certification on the Board Exam, achieving a high B average on both the practical and theoretical sections.

Targeted for continued development for 08-09 is ratcheting up programs to industry and national standards. We tested the waters this year by implementing Serv Safe in Culinary Arts and NATEF and ASE assessments in Automotive Technology. Next year, we will provide opportunities in Nursing, Pharmacy Technology, and Automotive Collision Technology. By working with the leadership of our district and our sending high schools, we have developed a strategic plan to achieve this goal. HCC also joined SREB's Technical Centers that Work network and will develop a local site plan during 08-09.
